December 23

Dear President:

The Society of Chemical Engineers, Japan (SCEJ) has begun actively seeking candidates for the annual SCEJ Award for Outstanding Asian Researcher and Engineer to be presented in 2023.

Please help us to recognize outstanding researchers and engineers in academia and industry who are under the age of 45 and who have contributed to research and technological developments in the field of Chemical Engineering.

We would greatly appreciate receiving one nomination from either you or one of the representatives of your organization by February 15, 2023. Nomination procedures can be found on the attached files, but can also be accessed through the SCEJ website (<https://www.scej.org/en/awards/scej-award-for-oare.html>).

Sincerely yours,

Masahiko Matsukata
President
The Society of Chemical Engineers, Japan

Enclosures (3):

1. Introduction of the SCEJ Award for Outstanding Asian Researcher and Engineer
