[Particle Engineering]

Flame Propagation Characteristics of Deposited Coal Dust Explosion Driven by Airflow Carrying Coal Dust .....631  
Tianqi Liu, Zhixin Cai, Ruicheng Sun, Ning Wang, Ruiheng Jia and Weiye Tian

[Separation Engineering]

Preparation of Natural Bio-Adsorbent from Green Tea Extract Powder and Its Application for Selective Removal of Cs(I) from Water .....638  
Bimala Pangei, Hari Paudyal, Katsutoshi Inoue, Keisuke Ohto and Hidetaka Kawakita

[Chemical Reaction Engineering]

Effect of Structural Features of Polymer Gels Containing Au Nanoparticles on Their Catalytic Properties .....648  
Gakuto Kato, Hayato Doi, Hidenori Ohashi and Hideaki Tokuyama

[Process Systems Engineering and Safety]

Adaptive Soft-Sensor Modeling of SMB Chromatographic Separation Process Based on Dynamic Fuzzy Neural Network and Moving Window Strategy .....657  
Dan Wang, Jie-Sheng Wang, Shao-Yan Wang and Cheng Xing

Closed-Loop Identification and PID Retuning of Self-Excited Oscillatory Process from Poor PID Controller Tuning .....672  
Shigeki Ootakara and Yoshiyuki Yamashita
